TRD2D upgrade
mCBM May 2022
Day 1

2nd May 2022

TRD2D FEE upgrade

Mechanics : Unmount TRD2D from mCBM table

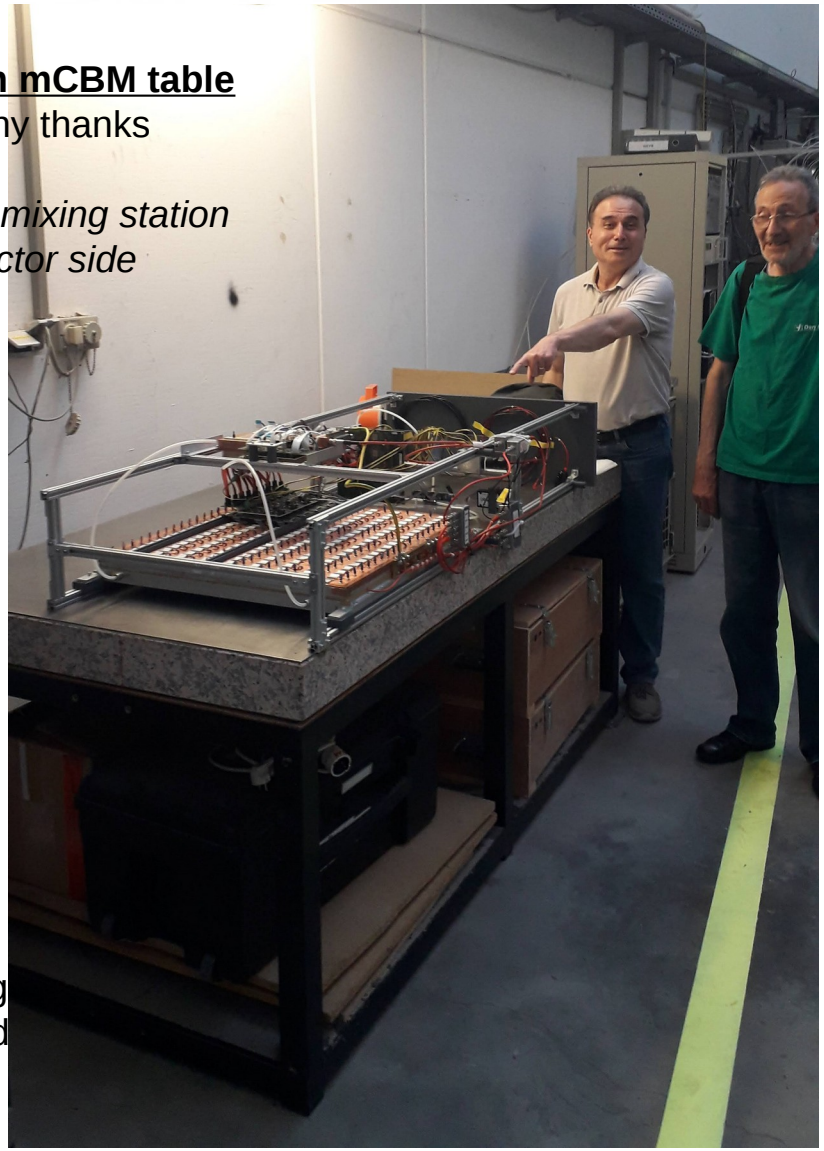
→ disconnect from the gas flow (many thanks Philipp)

→ *switch off TRD2D line from the mixing station*

→ *shorted in/out lines on the detector side*

→ disconnect services

→ move TRD2D setup to a working space



DAQ :

→ 2 x CROB were provided by Joerg and are ready to be mounted

TDR Addendum defending

→ Meeting with Sergey and start a common task summarized in the MR @ https://git.cbm.gsi.de/computing/cbmroot/-/merge_requests/818/commits

→ Regular daily meetings were proposed to check the evolution on both sides

→ A general meeting was scheduled with Piotr, Norbert and Volker for Wednesday to discuss a general strategy for the ECE/ECSG Meeting on 11.05
