

Session Program

8-10 Apr 2025

World Quantum Days in IFIN-HH

WQD Session 2

National Library of Physics

Wednesday 9 April

11:55

WQD Session 2

Session | **Location:** National Library of Physics

11:55–12:35

Berry Phases and Connection Matrices Defined on Homogeneous Spaces Attached to Jacobi Groups

Speaker

Stefan Berceanu

12:35–13:15

Quantum Teleportation Based on the Output States of Asymmetric Broadcasting of Entanglement

Speaker

Iulia Ghiu

13:15–13:35

Singularity confinement and proliferation of tau functions for a general differential-difference Sawada-Kotera equation

Speaker

Andrei Marin

13:35
