

Session Program

27-29 Apr 2026

World Quantum Days in IFIN-HH

Session 1

National Library of Physics

Wednesday 29 April

09:00

Session 1

Session | **Location:** National Library of Physics

09:00–09:30

Linear Hamiltonians in generators of the real Jacobi group on the extended Sigel-Jacobi space

Speaker

Prof. Stefan Berceanu

09:30–10:00

Spacetime mutual information can act as a cryptographic key

Speaker

Dr Christina Rugina

10:00–10:30

Comments on type II₁ von Neumann algebra in de Sitter space

Speaker

Mr Adrian Zaharia

10:30
